-

PROFESSIONAL EXPERIENCE

Red Positive Service | Frontend Developer (Remote) | Jaipur Rajasthan, India March 2020 - August 2020

- Worked in a team consisting of a backend developer, myself (Frontend developer) and a UI/UX designer.
- Integrated RESTful APIs and internal web services ensuring high performance.
- Developed responsive web pages and reusable components across multiple projects
- Used firebase realtime database to build the chat group for one of our projects.
- Lazy loaded the images and some components to improve the overall performance of the website.

Otabor Network | Fullstack Developer (Contract) | Lagos, Nigeria

September 2020 - December 2020

- Actively participated in agile software development processes.
 - Consumed GraphQL resolvers and used state management tools like Apollo in-memory database.
 - Built the authentication system.
 - Helped in integrating the API endpoints on the frontend.
-

EDUCATION

Bachelor Degree, Federal University of Technology, Owerri

GRADUATION June 2021

PROJECT WORK

Otabor Network | <https://otabornetwork.com/#>

This is the project for Otabor Network.

Dashboard | <https://maxng-testagwara.herokuapp.com/>

This is a dummy dashboard built with React.js, HTML, and CSS. The project demonstrates state management, Asynchronous data fetching, partial page rendering. You can login with any valid email and password. There is no authentication in the system.

Domino Clone (Personal Project) | <https://domino-client.herokuapp.com/>

This is a fast food app clone, here is the link to the real website: <https://www.dominos.ng/>. Although it is still a work in progress.

Landing Page | <https://blissful-noyce-e2cf51.netlify.app/>

This is a landing page I built using pure HTML and CSS. Here is the link to the github repo:
<https://github.com/Agwara/landingPage>
